Lumber Saved Over a Century Ago.

A remarkable curiosity in the way of a load of lumber was drawn to Burlington recently from Charlotte. The lumber was sawed in 1801, according to its present owner, and was stored away in an old building. It was taken to Burlington by Charles C. Hubbell. The lumber is first growth pine and was sold to Peter Cameron.

The wood is in a good state of preservation and does not have the appearance of being 105 years old. It is in the form of logs which have been prepared for clapboards with a gage saw.
